

Why Choose UltraHealth?

Healthy & Refreshing

UltraHealth is the only irregular cornea hybrid contact lens with highly breathable, healthy materials and an advanced lens design especially suited for patients with irregular cornea conditions.

UltraHealth corrects vision problems, is healthy for your eyes and delivers exceptional comfort, too.

Crystal Clear Vision & All-Day Comfort

UltraHealth offers a combination of vision and comfort benefits only available in hybrid contact lenses. The "rigid" (GP) material optimizes vision; while the soft skirt centers the lens over the cornea, providing enhanced clarity and longer-lasting comfort.

Hassle-Free Wear

UltraHealth is the same size as a soft lens, making it easy to handle, while the soft portion of the lens keeps dirt and debris out and the lens in.

Long-Term Corneal Health

UltraHealth is made with materials that allow high oxygen transmission. The lens design promotes tear circulation throughout the day, allowing for all-day wear. And the lens protects your eyes with a UVA & UVB blocker.

Ask your eye care professional about UltraHealth today.

ULTRAHEALTH™

The most advanced hybrid contact lens for irregular corneas.

Clear Vision & Comfort

Healthy & Refreshing

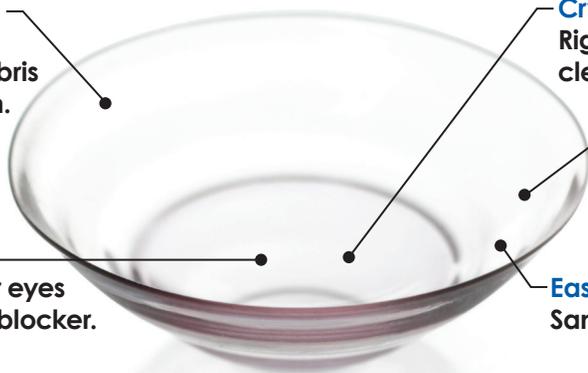

Advanced design and materials enables a healthy flow of tears and increased oxygen to the eye.

Hassle-Free Wear

Soft portion of the lens keeps the debris out and the lens in.

Sun Protection

Lens protects your eyes with a UVA & UVB blocker.

Crystal Clear Vision

Rigid center provides clear, crisp vision.

All-Day Comfort

Soft part of lens provides all-day comfort.

Easy to Handle

Same size as a soft lens.

Reclaim your world.

SynergEyes

Now, you too can Reclaim Your World.

Reclaim Your Beautiful World!

How well do you see the world around you?

With UltraHealth take your life back and see in a new way filled with clarity and all-day comfort.

With UltraHealth see the fine points and return to your everyday activities.

Reclaim Your Everyday World!

Are you tired of the hassles of your contact lenses?

UltraHealth is hassle-free. The soft lens size is more familiar to handle. There is minimal dirt and debris entrapment and the lenses won't "pop-out". There's no need to remove them mid-day for lens build up.

Enjoy UltraHealth hassle-free wear all-day.

Reclaim Your Active World!

Is your vision a compromise?

Whether you ride a bike or like to run or play basketball, UltraHealth helps active people thrive. UltraHealth offers clear vision and all-day comfort too.

See if UltraHealth can keep up with you.
